

Live Animal Talk and Demonstrations

Tuesday, March 10 • 2:30 pm

Echoes of Nature will provide a fun, nature-oriented educational program featuring live animal ambassadors.

Their animal ambassadors come from around the world, with a concentration on those species native to Maryland. Most of these individuals have been adopted from rescues and shelters. Many of the animals are touchable and audience participation is encouraged!

This event is free and open to guests of all ages,
but space is limited.

Please RSVP to Tall Oaks at 703-834-9800.
