Helping Patients and Clients Avoid the Dangers of Isolation and Loneliness While Social Distancing

Thursday, March 31 | 12-1:15 PM

While many people are still choosing to socially distance, it's important to remember that this can lead to isolation which can have physical, cognitive, and mental health risks. Join us as we examine the dangers of social isolation and loneliness while offering ideas to help prevent them in the lives of your patients and clients.

Presented by Jennifer L. FitzPatrick MSW, LCSW-C, CSP of Jenerations Health Education
